Excluded from this definition are "manufactured homes" as defined above.

Note: Mobile Homes vs. Modular Homes

"Mobile homes" have been required to follow construction standards, including heating, electrical and plumbing, since 1976 through a Federal Housing and Urban Development (HUD) program. In Wisconsin this is administered under contract by the Division of Safety and Buildings, Wisconsin Department of Commerce. The current proper and legal term for mobile homes is "manufactured homes". While the manufactured home itself is not covered by the UDC, any site-built addition to that home, such as a basement, crawl space or room addition attached to the home, does have to be constructed to meet the requirements of the UDC if the manufactured home was built after June 1, 1980.

While manufactured homes are constructed to the HUD construction standards, "manufactured dwellings" must meet the UDC standards. Such non-HUD factory built homes are referred to as "manufactured dwellings". However, double-wide manufactured mobile homes often are similar in appearance to modular homes. For purposes of identification, a manufactured (mobile) home is identified with a red metal rectangular label affixed to the rear of each full or half unit. This indicates the home has been constructed in accordance with the HUD manufactured home standards. In contrast, a modular home or manufactured dwelling will be identified with a red plastic sticker, called a "Wisconsin Insignia", imprinted with the outline of the State of Wisconsin. It will usually be affixed to the electrical panel, vanity base cabinet or kitchen cabinet. Inspectors must first identify what they are looking at before applying , the applicable code regulations.

- (82) **Mobile Home Park.** Any plot or tract of ground upon which two (2) or more mobile homes, occupied for dwelling or sleeping purposes are located, regardless of whether or not a charge is made for such accommodations.
- (83) **Mobile Home Unit.** Any vehicle or structure intended for or capable of human habitation which is mounted on wheels or jacks and is capable of being moved from place to place along a public highway in its complete, habitable form either by its own power or by power supplied by some towing vehicle, being more than thirty (30) feet in length. A modern mobile home can also be a "manufactured home."
- (84) **Modular Home (Manufactured Dwelling)** A current list of approved dwelling manufacturers can be found in COMM 20.13, Wis. Adm. Code, of the UDC.
- (85) **Motel.** A series of attached, semi-attached or detached sleeping units for the accommodation of transient guests.
- (86) **Motor Freight Terminal.** A building or area in which freight brought by motor truck is assembled and/or stored for routing in intrastate and interstate shipment by motor truck.
- (87) **Motor Vehicle.** Any passenger vehicle, truck, truck-trailer, trailer or semi-trailer propelled or drawn by mechanical power.

Article D: Conditional Uses

Sec. 13-1-60 Statement of Purpose Conditional Uses.

The development and execution of this Article is based upon the division of the Town of Farmington into districts, within which districts the use of land and buildings, and bulk and location of buildings and structures in relation to the land, are mutually compatible and substantially uniform. However, there are certain uses which, because of their unique characteristics, cannot be properly classified as unrestricted permitted uses in any particular district or districts, without consideration, in each case, of the impact of those uses upon neighboring land or public facilities, and of the public need for the particular use of a particular location. Such uses, nevertheless, may be necessary or desirable to be allowed in a particular district provided that due consideration is given to location, development and operation of such uses. Such uses are classified as conditional uses.

Sec. 13-1-61 Authority of the Town Board; Requirements.

- (a) The Town Board hereby authorizes the Zoning Administrator to issue a conditional use permit after review and public hearing, provided that such conditional use and involved structures are found to be in accordance with the purpose and intent of this Zoning Code and are further found to be not hazardous, harmful, offensive or otherwise adverse to the environment or the value of the neighborhood or the community. Such Town Board action, and the resulting conditional use permit shall specify the period of time for which effective, if specified, the name of the permittee, the location and legal description of the affected premises. Prior to the granting of a conditional use, the Town Board shall make findings based upon the evidence presented that the standards herein prescribed are being complied with.
- (b) Any development within five hundred (500) feet of the existing or proposed rights-of-way of freeways, expressways and within one-half (1/2) mile of their existing or proposed interchange or turning lane rights-of-way shall be specifically reviewed by the highway agency that has jurisdiction over the traffic way. The Town Board shall request such review and await the highway agency's recommendation for a period not to exceed twenty (20) days before taking final action.
- (c) Conditions such as landscaping, architectural design, type of construction, construction commencement and completion dates, sureties, lighting, fencing, planting screens, operation control, hours of operation, improved traffic circulation, deed restrictions, highway access restrictions, increased yards or parking requirements may be required by the Town Board upon its finding that these are necessary to fulfill the purpose and intent of this Chapter.

All requests for conditional uses shall be applied for with the Town Clerk on a form prescribed by the Town. The application shall be accompanied by a plan showing the location, size and shape of the lots involved and of any proposed structures, the existing and proposed use of each structure and lot, and shall include a statement in writing by the applicant and adequate evidence showing that the proposed conditional use shall conform to the standards set forth in Section 131-066 hereinafter.  - (2) That the uses, values and enjoyment of other property in the neighborhood for purposes already permitted shall be in no foreseeable manner substantially impaired or diminished by the establishment, maintenance or operation of the conditional use and the proposed use is compatible with the use of adjacent land.
 - (3) That the establishment of the conditional use will not impede the normal and orderly development and improvement of the surrounding property for uses permitted in the district.
 - (4) That adequate utilities, access roads, drainage and other necessary site improvements have been or are being provided.

- (5) That adequate measures have been or will be taken to provide ingress and egress so designed as to minimize traffic congestion in the public streets.

 - (8) That adequate measures have been or will be taken. to prevent and control water pollution, including sedimentation, erosion and runoff; approved by the appropriate jurisdictional authority.
- (b) **Application of Standards. When applying the above standards** to any new construction of a building or an addition to an existing building, the Town Board shall bear in mind the statement of purpose for the zoning district such that the proposed building or addition at its location does not defeat the purposes and objective of the zoning district.

Sec. 13-1-67 Denial of Application for Conditional Use Permit.

When a denial of a conditional use application is made by the Town Board, the Town Board shall furnish the applicant with a copy of the meeting minutes.

Sec. 13-1-68 Conditions and Guarantees.

The following conditions may apply to all conditional uses:

- (a) **Conditions.** Prior to the granting of any conditional use, the Town Board may stipulate such conditions and restrictions upon the establishment, location, construction, maintenance and operation of the conditional use as deemed necessary to promote the public health, safety and general welfare of the community, and to secure compliance with the standards and requirements specified in Section 13-1-66 above. In all cases in which conditional uses are granted, the Town shall require such evidence and guarantees as it may deem necessary as proof that the conditions stipulated in connection therewith are being and will be complied with. Such conditions may include specifications for, without limitation because of specific enumeration:
- (1) Landscaping;
 - (2) Type of construction;
 - (3) Construction commencement and completion dates;
 - (4) Sureties;

- (c) **Alteration of Conditional Use.** No alteration of a conditional use shall be permitted unless approved by the Town Board following a new public hearing.

Sec. 13-1-69 Validity of Conditional Use Permit.

Where a conditional use application has been approved or conditionally approved, such conditional use permit approval shall become null and void within twenty-four (24) months of the date of the approval unless the use is commenced, construction is underway or the current owner possesses a valid building permit under which construction is commenced within six (6) months of the date of issuance and which shall not be renewed unless construction has commenced and is being diligently prosecuted. The Town Board may extend such permit for a period of ninety (90) days for justifiable cause, if application is made to the Town at least thirty (30) days before the expiration of said permit.

Sec. 13-1-70 Complaints Regarding Conditional Uses.

The Town Board shall retain continuing jurisdiction over all conditional uses for the purpose of resolving complaints against all previously approved conditional uses. Such authority shall be in addition to the enforcement authority of the Zoning Administrator to order the removal or discontinuance of any unauthorized alterations of an approved conditional use, and the elimination, removal or discontinuance of any violation of a condition imposed prior to or after approval or violation of any other provision of this Code. Upon written complaint by any citizen or official, the Town Board shall initially determine whether said complaint indicates a reasonable probability that the subject conditional use is in violation of either one (1) or more of the standards set forth in Section 13-1-66 above, a condition of approval or other requirement imposed hereunder. Upon reaching a positive initial determination, a hearing shall be held upon notice as provided in Section 13-1-65 above. Any person may appear at such hearing and testify in person or represented by an agent or attorney. The Town Board may, in order to bring the subject conditional use into compliance with the standards set forth in Section 13-1-66 or conditions previously imposed by the Town Board, modify existing conditions upon such use and impose additional reasonable conditions upon the subject conditional use. In the event that no reasonable modification of such conditional use can be made in order to assure that Standards (a) and (b) in Section 13-1-66 will be met, the Town Board may revoke the subject conditional approval and direct the Zoning Administrator and the Town Attorney to seek elimination of the subject use. Following any such hearing, the decision of the Town Board shall be furnished to the current owner of the conditional use in writing stating the reasons therefor.

Sec. 13-1-72 Home Occupations; Professional Home Offices; Home Industry Businesses.

- (a) **Intent.** The intent of this Section is to provide a means to accommodate a small family home-based business or professional home office as a permitted or conditional use without the necessity of a rezone into a commercial district. Approval of an expansion of a limited family business or home occupation at a future time beyond the limitations of this Section is not to be anticipated; relocation of the business to an area that is appropriately zoned may be necessary.
- (b) **Restrictions on Home Occupations.** Home occupations and professional home offices are a permitted use in all Agricultural and Residential Districts and are subject to the requirements of the District in which the use is located, in addition to the following requirements:

 - (4) No use shall create smoke, odor, glare, noise, dust, vibration, fire hazard, small electrical interference or any other nuisance not normally associated with the average residential use in the district.
 - (5) Only one (1) sign may be used to indicate the type of occupation or business. Such sign shall not be illuminated and shall comply with district sign regulations.
 - (6) The use shall not involve the use of commercial vehicles for more than occasional delivery of materials to or from the premises.
 - (7) The Town Board may determine the percentage of the property that may be devoted to the occupation, but shall not exceed thirty percent (30%).
 - (8) No stock in trade is kept or sold except that which is made in connection with such occupation.

 - (12) No more than three (3) family employees may work on the premises.
- (c) **Home Industry Business conditional Use.** Home industry businesses are allowed as conditional uses, provided they are operated by family and/or non-family member employees; and involve either occasional sale of products not produced on the premises, or involve fabricating on the premises, either within the dwelling unit or in an accessory structure, a product which is not included in the definition of "home occupation."

- (a) **Continuation.** Except as otherwise specially provided in this Chapter, the lawful nonconforming use of a structure, land or water existing at the time of the adoption or amendment of this Chapter may be continued although the use does not conform with the provisions of this Chapter, provided however:

 - (2) The total lifetime structural repairs or alterations shall not exceed fifty percent (50%) of the assessed value of the structure at the time of its becoming a nonconforming use unless it is permanently changed to conform to the use provisions of this Chapter.
 - (3) Substitution of new equipment may be permitted by the Town Board if such equipment will reduce the incompatibility of the nonconforming use with the neighboring use.
- (b) **Abolishment or Replacement of Existing Nonconforming Use.** If such nonconforming use is discontinued or terminated for a period of twelve (12) months, any future use of the structure, land or water shall conform to the provisions of this Chapter. When a nonconforming use or structure is damaged by fire, explosion, flood, the public enemy or other calamity to the extent of more than fifty percent (50%) of its current assessed value, it shall not be restored except so as to comply with the use provisions of this Chapter.

Sec. 13-1-81 Existing Nonconforming Structures.

Sec. 13-1-82 Changes and Substitutions.

Once a nonconforming use or structure has been changed to conform, it shall not revert back to a nonconforming use or structure. Once the Town Board has permitted the substitution of a more restrictive nonconforming use for an existing nonconforming use, the substituted use shall lose its status as a legal nonconforming use and become subject to all the conditions required by the Town Board.

Sec. 13-1-83 Substandard Lots.

In addition, the Board of Zoning Appeals may permit new construction on such lots which does not meet current bulk or yard requirements. If two (2) or more abutting substandard lots are owned by the same owner, they are deemed to be combined and may not be sold or divided except in conformity with this Chapter.

- (b) **Substandard Lot Width.** Where a lot has a minimum width less than that required for the district in which it is located and was a lot of record on May 12, 1954, the side yards shall be as provided for the district in which the lot is located if possible, but if not possible, existing buildings which are as close as three (3) feet to lot lines may be altered, enlarged or extended except that such alteration shall not encroach further into the existing nonconforming side yard. - (c) **Basis of Approval.** The Town Board shall base its determinations on general considerations as to the effect of such grant on the health, general welfare, safety and economic prosperity of the Town and, specifically, of the immediate neighborhood in which such use would be located, including such considerations as the effect on the established character and quality of the area, its physical attractiveness, the movement of traffic, the demand for related services, the possible hazardous, harmful, noxious, offensive or nuisance effect as a result of noise, dust, smoke or odor and such other factors as would be appropriate to carry out the intent of the Zoning Code.
- (d) **Definitions.** "Wind energy systems" shall mean "windmills" which are used to produce electrical or mechanical power.

Sec. 13-1-131 Permit Procedure-Wind Energy Systems.

If the system is intended to provide power to more than one (1) premises, the plat or survey shall show all properties to be served and the means of connection to the wind energy conversion system. A copy of all agreements with system users off the premises shall accompany the application. The application shall further indicate the level of noise to be generated by the system and provide assurances as to the safety features of the system. Energy easements shall accompany the application.

Such decision shall include an accurate description of the special use permitted, of the property on which permitted, and any and all conditions made applicable thereto, or, if disapproved, shall indicate the reasons for disapproval. The Town Board may impose any conditions or exemptions necessary to minimize any burden on the persons affected by granting the special use permit.
- (d) **Termination.** When a special use does not continue in conformity with the conditions of the original approval, or where a change in the character of the surrounding area or of the use itself cause it to be no longer compatible with surrounding areas, or for similar cause based upon consideration for the public welfare, the special grant may be terminated by action of the Town Board following a public hearing thereon.
