

TOWN OF FARMINGTON
2021 ROAD REPAIR
REQUEST FOR PROPOSALS (RFP)

The Town of Farmington is requesting proposals for cost associated with asphalt overlay projects and also “spot” asphalt patches thorough the township. Each potential bidder should specify if they are submitting a proposal for both the overlay projects and/or “spot” asphalt repairs.

Proposals do not have to include both overlay and “spot” repair request. Work may be awarded as a combined project or separating “spot” repairs from overlay repairs.

“Spot” repairs include:

Saw cut existing asphalt at the pre-marked dimensions (pink painted) locations

Remove and dispose of old asphalt material.

Install 3” of new hot mix asphalt material (installed in two 1.5” lifts, compacted in between lifts)

*** indicated spot patches that will require undercutting the existing subsoil material to a minimum depth of 8” (depth based on material discovered), filled in and compact a new crushed aggregate base (1.5-2” limestone breaker run material)

All work should include labor, equipment and material cost to complete. Work should be completed on or before October 31, 2021, unless agreed upon and specified in the proposal submitted.

The Town of Farmington reserves the right to add additional linear footage length to the proposed overlay locations prior to start of work. The town also reserves the right to choose how much of the itemized list is award based on proposal amounts and budgetary amounts.

A map with specific locations will accompany this request for proposals. Feel free to contact Doug Neumann, Town Chairman, (262.689.1926) with any questions regarding details of the RFP.

Deadline for submittal is July 13, 2021 @ 7:00pm. Proposals will be opened during the Town Meeting scheduled on July 13, 2021 @ 7:00pm

Sealed proposals should be mailed to or dropped at the Town of Farmington Town Hall:
